

Purpose Area 3 Methamphetamine Prevention, Treatment, and Aftercare

- a. What are the ages of the target population your project serves?
 - 1. Youth (17 and under)
 - 2. Young Adult (18-24)
 - 3. Adult (25-54)
 - 4. Seniors (55 and up)
 - 5. Not Applicable
- b. Is your target population primarily service providers?
- c. How many potential participants exist in your service area in each age category?
 - 1. Youth (17 and under)
 - 2. Young Adult (18-24)
 - 3. Adult (25-54)
 - 4. Seniors (55 and up)
- d. How many participant contacts did you serve in each age category?
 - 1. Youth (17 and under)
 - 2. Young Adult (18-24)
 - 3. Adult (25-54)
 - 4. Seniors (55 and up)
- e. List and describe project accomplishments during the current reporting period.
- f. List and describe project challenges to success during the current reporting period.

Objective 1 Expand available behavioral health care treatment services

- a. How many individuals did your project refer to substance use disorder treatment?
- b. How many individuals are accessing recovery services after treatment as a result of your project?
- c. How many individuals did your project provide services to who are continuing in recovery after one year?
- d. What “other substances” are being abused within your service population?
- e. How have you adapted your services to address these “other substances”?

Objective 2 Foster coalitions and networks to improve care coordination.

- a. Please list community partners by name, type, and purpose (designate those with formal partnership through Memorandum of Understanding/Agreement)

Agency/Program	Type of service provided to you	Description of resources shared	Purpose of partnership	New or enhanced relationship

- b. How many new MOUs/MOAs were established as a result of your project?
- c. How many MOUs/MOAs were enhanced as a result of your project?
- a. If you previously established MOUs/MOAs with partners, how did you enhance those MOUs/MOAs?

Objective 3 Educate and train providers in the care of methamphetamine and other substance use disorders.

- a. How many total providers did you train in methamphetamine or other substance use disorder screening?
- b. What type of healthcare disciplines were trained in substance use disorder screening, assessment, or treatment?
 - 1. Physicians

2. Nurse
 3. Licensed Independent Providers (Physician Assistant, Nurse Practitioners)
 4. Mental Health Professionals
 5. Non-licensed staff
 6. Other (please describe)
- c. What methamphetamine or other substance use disorder screening instrument did you provide training on?
 - d. How many total providers did you train in suicide screening?
 - e. What suicide screening instrument did you provide training on?
 - f. What other topics did your project provide trainings on?
 - g. How many total providers did your project train in safety planning?
 - h. How many total trainings for healthcare providers did your project provide?
 - i. How many behavioral health providers did you train to provide brief intervention or motivational interviewing?

Objective 4 Promote community education to prevent the use and spread of methamphetamine

- a. What type(s) of trainings did your project conduct for community members and/or non-healthcare professionals, such as teachers, law enforcement, youth workers, child protection workers, etc.?
 1. Schools
 2. Cultural/social gatherings
 3. Other (please describe)
- b. How many trainings did you provide for community members and/or non-healthcare professionals, such as teachers, law enforcement, youth workers, child protection workers, etc.?
- c. How many community members and/or non-healthcare professionals did you provide training to?
- d. What was the total number of community education events provided for adults?
- e. What outcomes did you discover from your adult focused education events?
- f. What is the total number of community education events provided for youth?
- g. What outcomes did you discover from your youth focused education events?
- h. How many total postings did you make to a social media page that included a substance use prevention and/or treatment message?
- i. What forms of social media did you use?
- j. How many total encounters did you have through social media?
- k. How many total radio/TV/billboard ads were created with a substance use prevention and/or treatment message?
- l. What was a population that you were unable to reach with your education and training efforts?

Objective 5 Improve health system organizational practices to improve treatment services for individuals seeking treatment for methamphetamine and other substance use disorders that contribute to suicide.

- a. What new activities did your project implement to screen for methamphetamine and other substance use disorders?
- b. What activities were enhanced for implementing screenings for methamphetamine and other substance use disorders?
- c. How many individuals were screened for methamphetamine and other substance use disorders?
- d. What instrument are you using to screen for methamphetamine and other substance use disorders?
- e. How many individuals were referred for substance use disorder services?
- f. What type(s) of evidence-based practice (EBP) was used for treatment of a methamphetamine or other substance use disorder?
 1. Attachment-Based Family Therapy
 2. Cognitive Behavioral Therapy (CBT)

3. Dialectical Behavioral Therapy (DBT)
 4. Matrix Model
 5. Motivational Enhancement Therapy/Cognitive Behavioral Therapy (MET/CBT)
 6. Motivational Interviewing (MI)
 7. Guideline/Protocol
 8. Other (please describe)
- g. How are you measuring the effectiveness of the EBP you are providing?
- h. What type(s) of practice-based practice (PBP) was used for treatment of a methamphetamine or other substance use disorder?
1. Gathering of Native Americans (GONA)
 2. Red Road
 3. White Bison
 4. Other (please describe)
- i. How are you measuring the effectiveness of the PBP you are providing?

Objective 6 Establish local health system policies to address methamphetamine use and other substance use disorders that contribute to suicide.

- a. Does your project have a written policy and procedure for substance use disorders?
1. Not started
 2. In-progress
 3. Completed
 4. Updated
- b. Does your project's policy include the following components:
1. Screening for substance use disorders
 2. Process for referring individuals for substance use disorders care
- c. Does your project's policy include follow-up to individuals who report substance use disorders?

Objective 7 Integrate culturally appropriate treatment services.

- a. What type(s) of cultural services does your project provide?
1. Dancing
 2. Drumming
 3. Language
 4. Singing
 5. Songs
 6. Story telling
 7. Traditional crafts (e.g., beading, basket weaving, tool making, jewelry)
 8. Traditional games
 9. Equine therapy
 10. Other (please describe)
 11. Link to other provider who provides cultural services
- b. What type(s) of religious, spiritual, and faith-based services does your project provide?
1. Traditional Practices
 2. Therapy and Counseling
 3. Prayer
 4. Pastoral Care
 5. Spirituality Groups
 6. Clergy or Chaplain Support
 7. Shelter
 8. Transportation

9. Other (please describe)
- c. How many individuals received cultural services?
- d. How many individuals received faith-based services?
- e. How would you describe the impact of providing cultural services to the individuals reached through your project?
- f. How would you describe the impact of providing faith-based services to individuals reached through your project?

Objective 8 Implement trauma informed care services and programs

- a. What trauma informed care elements are included in your project activities?
 1. Safety
 2. Trustworthiness and Transparency
 3. Peer support
 4. Collaboration and mutuality
 5. Empowerment, voice and choice
 6. Cultural, historical, and gender issues
 7. Other (please describe)
- b. How many trainings on trauma informed care did your project provide?
- c. How many healthcare professionals did your train in trauma informed care?
- d. Please list the type(s) of professionals who were trained in trauma informed care?
- e. Have you offered trainings on trauma informed care to the community you serve?

Staffing

- a. Have you been able to recruit, hire, and onboard staff for your MSPI project?
- b. Do you have a full-time coordinator for your program paid by MSPI funds?
- c. If no, what percentage of time is the coordinator paid by MSPI?
- d. Did your MSPI project experience staff turnover?
- e. If yes, which staff have left your project?
- f. Reason for turnover?
- g. How has your project been impacted by other staff changes?
