

## HIV COUNSELING, TESTING, AND/OR REFERRAL SITES

Knowing one's status by getting tested, understanding risk factors and next steps through comprehensive counseling, and being referred to services are crucial intermediate steps between the prevention and treatment of HIV/AIDS. The sites listed below partner with their respective states to provide one, some, or all of these services.

AIDS.gov also offers a very convenient way to locate testing sites and other HIV services near you. Simply go to the HIV Testing Sites and Care Services Locator and enter your location:

### NORTH DAKOTA

The sites listed below provide HIV antibody testing, counseling, and/or referral for at-risk individuals, including Tribal members. Often, these services are provided for a nominal fee or free to residents of North Dakota, and many are flexible with those who are unable to pay or whose insurance does not cover services rendered. Sites are distributed throughout the state, and appointments are encouraged.

The North Dakota Department of Health assures that the sites below adhere to the strictest rigors of confidentiality allowed under the law.
